

**Graham Lambertson**  
[grahamlambertson@yahoo.com](mailto:grahamlambertson@yahoo.com)

I am seeking freelance and contract work as a Presentation Layer Developer, Instructional Developer or Web Application Developer for short-term and long-term projects working independently or as a contributor to a large project.

I am well versed in Adobe CS3, PHP/MySQL, AJAX, jQuery, XHTML, CSS, Javascript, XML and am familiar with the trends in Web 2.0 and SEO.

Some of my strengths are:

- Positive and aggressive work attitude
- Strong communication skills in development scenarios
- Able to work in team environment as well as manage individual efforts
- Self motivated, disciplined and organized
- Ability to offer valid and creative ideas to technical and aesthetic issues

Jointly and independently, I have had the opportunity to work with the following entities:

A2D Technologies, Akzo Nobel, Aramco Services Company, AT&T Labs, Avenue A | Razorfish, Brian Stringer Antiques, BST, Champion Technologies, Collective Soul, Cooper Industries, FMG Design, Garden Ridge Pottery, Go9 Media, HiJet, Jiffy Lube, Lori Braun Design, Lucent Technologies, Schlumberger, Shell Global Solutions, Sprint, Tweco Robotics, Victor Equipment and Waste Management.

## SKILLS

---

### Software:

Dreamweaver, Photoshop, Illustrator, Flash, Captivate, Contribute, Ulead Media Studio, Sorenson Squeeze, Microsoft Office Suite

**Programming:** PHP/MySQL, AJAX, AS2, XHTML, CSS, Javascript, XML

### Third Party Tools:

PayPal Website Payments Pro, WordPress, jQuery Tools, MooTools, Lightbox2, Google Maps API, SpryAssets, sIFR, Atomz, WAMP Server, Concrete5

**Deprecated:** ASP/MS Access, Director/Lingo

## EXPERIENCE

---

### **Behavioral Science Technology – Website Developer** **2007 - 2009**

Working in the Marketing department, my workload consists of several small- and large-scale projects with deadlines that are both aggressive and strategically planned. Projects pop up on a daily, weekly and monthly basis and all need to be well coordinated and organized. 100% of the work I am currently doing is delivered to the web.

*Technologies Used: Adobe CS3, XHTML, CSS, Javascript, PHP/MySQL, AJAX, Ulead, PayPal*

### **Avenue A | Razorfish – Presentation Layer Developer** **2006 - 2007**

My responsibilities at Razorfish ranged from making decisions about the technologies used on projects, connecting to databases from the front-end, prepping and manipulating graphics and multimedia development. This role required me to think, act and respond quickly to the unique nature of each project.

*Technologies Used: Flash/AS2, XHTML, CSS, Javascript, ASP.NET, JSP, CS2, Studio 8, BrowserCam, Tortoise CVS*

### **Gulf Coast Regional Blood Center – Instructional Developer** **2004 - 2006**

GCRBC is heavily regulated by the FDA and, therefore, needs to constantly train, re-train and track the training of its employees. My role as Instructional Developer required me to make decisions on the development of every web-based training module from the discovery phase to the storyboard to the interface design to the interactive programming to the LMS implementation. Working with GCRBC's LMS was very beneficial to me in expanding my capabilities and command of eLearning.

*Technologies Used: Flash/AS2, XHTML, CSS, Javascript, ASP/MS Access, XML/XSLT, CS2, Studio MX 2004, Ulead, Sorenson Squeeze, Captivate, Plateau LMS*

### **Tes Multimedia – Technical Director** **2001 - 2004**

Tes allowed me to develop myself in the workplace. Initially, I served as a contractor for their more complex multimedia development. Also, I was faced with a lot of challenges that were, at first, experimental. As Technical Director I worked directly with clients and was able to influence the outcome of projects based on decisions about design, resources used for projects, and time estimates.

*Technologies Used: Flash, HTML, Director/Lingo, ASP/MS Access, Javascript, CFM, Photoshop, Illustrator, Ulead, Media Cleaner*

## EDUCATION

---

### **University of Houston**

B.F.A. Photography/Digital Media, *cum laude*  
Minor in Art History

### **Traverse Bay - Career Tech Center**

Commercial Art
